Insulin Patch Pump

## Feel the Freedom

Small - Simple - Tubeless

# Personal Diabetes Assistant (PDA)

11.2cm

5.9cm

## Equil Insulin Patch Pump

Small - Simple - Tubeless

1.1cm

## Small and Lightweight

The insulin patch pump that is discreet for sports, work or any special occasion.

Small and lightweight, you can hardly feel it's there.

## Tubeless

No infusion set tubing.

Quick pump detach for water activities.

## Bolus Calculator

An accurate way to have your bolus insulin calculated for mealtimes or to bring your blood glucose level back to target range, keeping track of active insulin to prevent the stacking of insulin in your body.

# Equil Insulin Patch Pump

## Discreet Bolus Delivery

Discreet bolus from the PDA device so you do not need direct access to your pump.

## PDA (Personal Diabetes Assistant)

## Simple to Use

The PDA device controls your pump through a secure Bluetooth® connection.

## Quick Bolus from the pump

Did you forget your PDA at home?

Press the quick bolus button on your patch pump to administer insulin.

## Basal Rate

Various basal programs and rates available to adjust to your daily basal insulin needs for e.g. workdays, weekends, sick days and holidays.

Control your pump and measure  
your blood glucose on one device

Exactive EQ  
blood glucose test  
strips available  
on request
